

## Apple Ford

2113 Lakeside Drive  
Lynchburg, VA 24501

**Contact:** Darryl Huften (434) 385-5012

**Size (SF)** 31,294 sq ft

**Contract Delivery Method** design-build

**Contract Time** 259 days

**Date Completed** June 2015

*Contract completed on time and in budget*

### Project Narrative

After learning that Ford was requiring their 30 year old facility to be modernized, Apple Ford contacted us to design and construct the renovations. Using Ford's Design Intent Documents, plans were designed to update the entire facility.

The nearly 6,000 square foot area containing the showroom and administrative areas was completely redesigned to create a bright and modern new space, allowing the cars to be the focal point, while the remaining space containing the service and parts areas was reworked as necessary for code compliance.

Utilizing materials such as insulated metal panels, storefront glass, and new insulation allowed the renovated facility to exceed values required for energy compliance.

Renovations took place while the dealership was still open, requiring careful scheduling to allow them to operate with minimal disruption to their daily activities.
